

## CCRF Fall 2021 RFP

The CCRF invests in national evidence-based research to improve the health of those suffering with neuromusculoskeletal (NMSK) pain and disability.

Throughout the pandemic, suffering due to NMSK problems has risen at an alarming pace while many traditional funding sources for Early Career Researchers (ECRs) in this field has dropped. Research is about creating a brighter future for patients and our profession. That's why it's crucial for CCRF to invest in ECRs through this year's fall funding opportunity. Our goal is to encourage innovative problem-solving and emerging opportunities which can create new pathways to advance our work on behalf of patients, clinicians, policy makers and other influential stakeholders.

### RFP Details for Fall 2021: Early Career Researchers

CCRF is pleased to offer its Fall 2021 Request for Proposals (RFP) to Canadian Early Career Researchers (ECRs) in the chiropractic and adjacent healthcare fields. The total grant pool for this RFP is in excess of **\$100,000**. Grants for individual projects start at **\$5,000**.

All CCRF grants are available thanks to the very generous support of the Canadian Chiropractic Association and our Provincial Associates, representing clinicians from across Canada. We would also like to recognize our private donors – chiropractic visionaries who have made a strong personal commitment to evidence-based national research.

### Who Can Apply?

To be considered for CCRF funding in this RFP cycle, your project must:

- Be led by an Early Career Researcher (ECR). For the purposes of this RFP, eligible ECRs are working toward or have received their PhD. in Chiropractic or a related discipline within the last 5 years - excluding authorized leaves of absence. CCRF reserves the right to waive the PhD requirement for submitters who can demonstrate a publication history via accredited, peer-reviewed publications.
- Include at least one Canadian team member, residing in Canada (note: a Canadian project lead is recommended but not required)
- Additional funding or in-kind partnerships are desirable but not required
- Adhere to the parameters set out in this **Request for Proposal (RFP)**
- Be received by the CCRF before 11:59pm on **Friday, November 12, 2021**
- Be conducted in accordance with Canadian legal, regulatory and ethical guidelines
- Be eligible for publication in an accredited, peer-reviewed journal

## What Kinds of Projects?

Our Research Committee invites proposals that address a wide range of topics. This may involve exploring gaps in current knowledge, expanding on existing studies, demonstrate fresh thinking and/or innovative use of technology. Professional and well-developed methodologies, appropriate supervision and effective institutional support are encouraged. Projects must reflect at least one of CCRF's **National Research Priorities**: Basic Science, Clinical Science, Health Systems and Population Health.

## How to Apply

To ensure equal access for submitters and reduce bureaucracy, CCRF uses the simple three-step application process. Before applying, please make sure to review this **Request for Proposal (RFP)** and its eligibility criteria thoroughly.

### Step One: Letter of Intent (LOI)

- Grant seekers submit a brief Letter of Intent (LOI) to provide a succinct overview of their proposal, including an overview of the project concept, the anticipated output and the amount of funding requested
- LOIs must follow the submission format and instructions below
- LOIs must be received by 11:59pm on **Friday, November 12, 2021**

### LOI Submission Format

- English language on your organization's letterhead
- LOI should be no more than two pages in length, single-sided, single-spaced, Calibri 11-point font, and 1-inch margins with page numbers at the bottom
- Page One should include:
  - project title
  - general research design
  - applicant's name, degree, contact information and professional affiliation
  - amount of grant requested
- Page Two should contain the research abstract, which describes the scope, purpose, methodology, hypothesis of your project and content of the proposed work. Please indicate the anticipated impact of this research and why it is important to further knowledge within one or more of the four CCRF Areas of Focus (Basic Science, Clinical Science, Health Systems, Population Health).
- Supporting materials, such as peer reviewed publications and biographic information, are optional and can be provided as attachments (maximum two pages)
- Proposals must be dated and signed by principal applicant
- Signed proposals must contain the following declarations: "We/I confirm, that to the best of our/my knowledge, this LOI submission is accurate. We/I also certify all identified investigators will fully participate in the proposed work. We/I have read and understood the most recent CCRF *Request for Proposal and Letter of Intent Guidelines*."

### LOI Submission Instructions

- A single PDF file containing the LOI and all supporting documents should be emailed to [info@chiroresearch.ca](mailto:info@chiroresearch.ca) no later than 11:59pm on **Friday, November 12, 2021**.
- PDF files should be saved as “LOI\_lead submitter last name\_institution\_year.” (e.g., LOI\_Harris\_University of Toronto\_2021)
- A confirmation email will be sent within 72 hours of receipt

### **Step Two: Evaluation**

Proposal evaluation is overseen and administered by the CCRF Research Committee.

- Every LOI is evaluated.
- Grant Applications are provided *only* to selected projects that align with the objectives and areas of focus outlined in the Current Request for Proposals (RFP).
- All submitters will be notified of the status of their project. Those who do not receive an application will be notified that a grant will not be offered this cycle.

### **Step Three: Grant Application**

Based on the LOI, the CCRF provides selected teams with a Grant Application.

- Grant applications include a cover letter, project overview, phases and timeline, monetary request, submitter background/qualifications, references, other funding sources (projected and confirmed) and multimedia components (if any)
- For grant requests over \$10,000, a 30-minute videoconference presentation may be requested
- Final funding recommendations are approved by CCRF’s Board of Directors
- Applicants are informed about proposal status with a letter indicating:
  - A grant will not be offered during this cycle (concise written feedback is available upon request)
  - A grant is approved contingent on standard CCRF terms and conditions

### **Important Dates**

- LOIs must be received by 11:59pm on **Friday, November 12, 2021**
- CCRF will inform applicants if a Grant Application (based on the LOI) will be requested by Friday, November 26, 2021.
- Grant decisions are scheduled to be determined in mid-March 2022
